HEAVY SNOW IS PACKED IN RANGE

Fall of the Beautiful This Winter Averages Much More Than Usual.

RECENT WARM WAVE HAS MADE IT SOLID

Weather Bureau Gives Out Interesting Figures as to Depth on Dec. 31.

Section Direction of the Weather Burean in Salt Lake Alfred H. Thieseen has compiled figures which are most inejesting, showing the depth of the snow n the mountains at the close of Decemer, 1909. Saya Director Thiessen;

The snowfall in the mountains averges much more than usual. There has een very little wind during the month ocen very little wind during the month and consequently there has been less drifting than usual; but the warm days at the close of the month have thawed the snow somewhat, making it solid and in a condition much better for keeping a long time. Most of the correspondents report prospects very good for the coming season." Remarks of correspondents of the bureau here follow.

Great Salt Lake Watershed.

usual.

Ogden—The snow is much heavier than a year age. It is drifted much more than usual, and the water supply for the coming season is better than

Henefer-The snow is from 1 to 5 feet deep and is well pucked, and is almost

Marion-There are 60 inches of sno Marion—There are 60 inches of show on the mountains; it is solid for this time of the year, and the water supply will be above the average.

Park City—The snow in the mountains is about normal. It is quite evenly distributed on the ground, and the water supply will be about the same us average.

Sense Canyon—The snowfall is about the mail, being from 18 to 36 inches deep. Government Creek—There were heavy good for water supply.

Fayson—The snowfall is above the average and is well drifted and packed. The water supply for the next season will probably be good.

Frovo—The snowfall is above the average for this time of the year, but is light and not drifted in the valleys. In the upper levels it is well packed and quite deep.

Moroni.—There is about 2½ feet of snow a the mountains, and it is well packed, and much of it is ice. Black Rock.—There is about 6 inches of snow, which is about one-fourth th Descret-The snowfail is drifted and

Descret—The showfall is drifted and solid, and averages about normal. Garrison—More than the normal amount of show lies on the mountains and it is drifted and well packed.

Kanosh—The snow is slightly below normal, being about 1 foot on the hills and 2 feet in the higher levels.

Anushella—Well packed snow, averaging about 2 feet, lies on the mountains.

Fish Lake—The snow is packed and averages more than normal.

Koosharem—The snowfall averages from 1 to 24 feet deep. It is very well packed.

Important Meeting of American Women

An important business meeting of the Woman's American club will be held at 2 o'clock this, Monday, afternoon, at the home of Mrs. Mary Moyer, 675 Fourth avenue. This is the meeting at which the annual election of officers is to take place, and it is therefore hoped that there will be a big attendance of members.

A most cordial invitation is extended all women interested in the work of a organization and the purity of the

DALTON FOR SECOND

Employee of City License Department to Take Place Vacated by Rogers.

W. S. Dalton, who is employed as license inspector in the office of City Auditor Rudolph Aiff, will be appointed by City Attorney Dininny as second as-sitant attorney to take charge of the ity's interest at the police court.

city's interest at the police court. Mr. Dinlany made his decision in this matter Sunday, after considering a number of applications for the place. Edgar A. Rogers, who has filled that position for the past two years, was not an applicant for reappointment, so the alterney had to choose another to fill that position. Dalton was formerly a prominent Socialist and was a leader in his party. For the past few years he has been identified with the American party and has done good work in his behalf. He is a good speaker and his work in the recent campaign was effective. He was admitted to the bar several years ago, but has never engaged in active practice. That he is well qualified for the position's well known.

Notice to Creditors.

I will not be responsible for any debts contracted by my wife, Mrs. Florence Elsberry, after the appearance of this notice. F. L. ELSBERRY.

Great Salt Lake Watershed.

Kelton—The snow in the mountains was very heavy, and was also heavy in the bills, and averaged above the usual smount everywhere, and two or three feet was estimated. The prospective water supply appears to be heavy. The snow was drifted and hard.

Lucin—There are from 19 to 18 inches of snow in the adjacent mountains or hills, and last year at this time there was about 8 inches. It has not drifted to any extent.

Promontory—Three or 4 feet of snow hies on the mountains and averages more than last year. The snow was packed acid everywhere.

Logan—There are 35 inches of snow and in about the same as hast vear. The snow was packed acid overywhere.

Logan—There are 35 inches of snow than last year, and average about 1 foot. At the head of the hollows and tops of the mountains it is from 3 to 5 feet deep, and is loosely packed.

Blacksmith's Fork—The snow is above the average, being 12 feet on the adjacent hills and from 3 to 5 feet deep, and is loosely packed.

Rieadowville—The snowfall is above the average, being 15 feet on the adjacent hills and from 3 to 5 feet on thills and from 3 to 5 feet on the source, being 2 feet on the adjacent hills and from 3 to 5 feet on the source, being 12 feet on the adjacent hills and from 3 to 5 feet on the source, being 12 feet on the adjacent hills and from 3 to 5 feet on the source, being 15 feet on the adjacent hills and from 3 to 5 feet on the source, being 15 feet on the adjacent hills and from 3 to 5 feet on the source, being about 36 theres. It is well drifted and the prospective water supply is very good.

Riedowville—The snowfall is above the average, being from 18 to 35 inches deep, lit is generally quite solid, and the prospective water supply is very good.

Riedowville—The snowfall is above the average, being from 18 to 35 inches deep, lit is generally quite solid, and the prospective water supply is better than a year age. It is drifted much

PLANS FOR THEATER GEORGE A. WISCOMB IS FIRE IN CIGAR STORE ASSISTANT ATTORNEY AT EXCHANGE PLACE

American Music Hall Company Will Erect Most Elegantly-Equipped House in West.

ARCHITECT TO TAKE SPECIFICATIONS AT ONCE

Fifteen Hundred Persons Can Be Seated, According to Details of Design.

Lake is presently to have the most beauatre, plans for whose building have been completed, will be at the corner of State street and Exchange Place.

The house will be crected by the Amer ican Amusement Hall company, an east ern corporation, which has vast capital behind it, and which has become con vinced that Salt Lake offers a fruitful held for investment.

capacity of 1500 and will, according to the plans and specifications, be the mostire west. This is not stated on the authority of any person, but on the authority of the plans, which have been completed and which are now in the city.

Plans Are Here.

These plans will be submitted to as architect in this city within a few days and thereafter all of the details preparatory to actual construction work will be

The cost of the new house, of course, cannot be definitely stated until the architect has completed his estimates of the cost of material, and figures have been secured, in accurate form, on the expense of furnishing the interior. The plans received, however, call for an expenditure of \$250,000.

The site secured by the American company is an ideal one. It is in the heart of the city, but removed sufficiently far from the thoroughfures of heavy traffic give it that atmosphere of homelike eclusion which is lacking in many these

seclusion which is lacking in many thea-ters builded upon the main streets of a city, where there is a constant hustle and bustle and business and industry. Site Is Convenient.

The site is just north of Fourth South State, and in easily accessible from in street through Exchange Place, between the Boston and Newhouse build ings.

Graduate of eastern technical school will give private instruction in mathematics, drawing or any works preparatory to college entrance in engineering or scientific courses. Address B.5, Tribune.

BEAUTIFUL CANTATA IS GIVEN A SECOND TIME

The beautiful cantata which was rendered at the First Methodist church on the evening of Sunday, December 25, was repeated yesterday morning to a large andience. "The Nativity," by Giebel, was sung by the choir in an excellent manner, and the soloists, Mrs. Nels Sorenson, soprano, Miss Elizabeth Robinson, contralto; S. Winter, tenor, and Earl E. Kirby, baritone, did their parts exceptionally well. The chorus work also was very good.

exceptionally well. The energy work also was very good.

The rendition of "The Nativity" yesterday morning was even better than the preceding week, and the big congregation sat enthralled by the magnificent

Defective Wire Causes Damage to Stock, Fixtures and Building of \$15,000.

WINDSOR HOTEL GUESTS DRIVEN INTO STREET

Stampede and Injury Prevented Through Night Clerk Beers's Coolness.

Fire, caused from defective electric wiring, started in the basement of the W. A. Stickney eigar store, at 223 South Main street, at 2.48 o'clock Sunday morning and, besides damaging the stock and fatures of the store to the extent of \$15,000 and the building to the extent of \$15,0 Fire, caused from defective electric

the rooms and, after arousing the guests, teld them to leave the hotel quietly and not cause a panic. He then turned in the fire alarm.

Prompt Response.

Prompt Response.

Chief W. H. Glore, in command of the apparatus from headquarters and station No. 2, responded quickly, the apparatus from No. 4 station going to be adquarters and remaining until the return of that apparatus.

Hampered in that the basement under the cigar store could only be entered hymeans of a dummy elevator, it required six hours and theiry-five minutes for the firement to get the fire under control. The work of putting out the fire was necessarily slow owing to the fact that the smoke from the burning tobaccomade it almost impossible to enter the basement. A large case, containing thousands of cigars and used for the purpose of keeping the cigars from drying out, fell into the basement shortly after the fire-mad started, the foundation being burned away.

Hotel Guests in Street.

Crowding the street immediately after the slarm had been turned in were the guests of the Windsor hotel, who were given shelter in the Kenyon until they could return to the New Windsor. Prominent among these were Fred Haiverson of the Modern barber shop, H. E. Green, the well-known mining engineer: Mrs. Mable Lanc of Park City and Frank Tinney of the Orphenm circuit.

Sunday afterneon adjusters were busily engaged in looking over the stock with a view of determining the exact amount of the damage. The loss has been estimated at \$15,000, most of which is caused by the cigars becoming saturated with the smoke.

The value of the building is placed at \$55,000, with insurance of \$15,000. The value of the contents of the store is estimated at \$50,000, with an insurance of \$15,000.

A private safe may be rented in the fire and burglar proof vaults of the Salt Lake Security and Trust company, 32 up Main street, \$2.00 per year.
